Connect to eduroam

Step 1
Open the settings.
Step 2
Go to **Network and internet** settings.
Step 3
Choose manage known networks.
Step 4
If you see the eduroam network, click forget.

Step 5
Right click on the wifi icon.
Choose Open Network and Sharing Center.
Step 6
Choose **Set up a new connection or network.**

Step 7
Choose **Manually connect to a wireless network.**
Click **Next.**
Step 8
Type the name of network (eduroam) and choose **WPA2-Enterprise** security type and click next.

Enter information for the wireless network you want to add

- **Network name:** eduroam
- **Security type:** WPA2-Enterprise
- **Encryption type:** AES
- **Security Key:**

- **Start this connection automatically**
- **Connect even if the network is not broadcasting**
  - **Warning:** If you select this option, your computer’s privacy might be at risk.

[Next] [Cancel]
Step 9
Click **Change connection settings**.

Successfully added eduroam

→ Change connection settings
   Open the connection properties so that I can change the settings.
Step 10

Choose the Security-tab.

Choose Network authentication method: Microsoft: EAP-TTLS.
Step 11

Choose **Settings**.
Step 12
Uncheck the checkbox.
Step 13

Select a non-EAP method for authentication

Choose MS-CHAP V2.

Click OK.
Step 14
Turn off Automatically using Windows username and password.
Click OK.
Step 15
Choose Advanced Settings.
Step 16

Choose **Specify authentication mode** and select **user authentication**.
Step 17

Click **Save credentials**.
Step 19
Type your E-mail address *(xy@brc.mta.hu)* and the password.

![Windows Security Screen](image)

**Save credentials**

Saving your credentials allows your computer to connect to the network when you’re not logged on (for example, to download updates).

User name

Password

Click **OK** and click **OK** again and **Close**.

Step 20

Click **Connect**.
